

# 780061, 780062, 780063 INJECTOR TECHNICAL INFORMATION

## GENERAL INFORMATION

Three different injectors with the same p/n 9657144580:

780061 – flow 4, 780062 – flow 5, 780063 – flow 6.

The red circled number identifies the optimal grade of fuel dosage. Different level may provoke imbalances or irregularities on engine and emissions compliance.

For example, if an engine has a injector set of grade 4, in case of partial replacement 1/2/3 pcs, the mechanic have to fit the new injector grade 4 only.

In case of full replacement of injector set the mechanic may choose a set of 4, or 5 or 6 without any trouble for the engine.
